

San Jose PV solar container prices

Overview

As of February 2025, the average storage system cost in San Jose, CA is \$1031/kWh. How much does solar cost in San Jose?

Let's have a look at the average cost of solar in San Jose. In San Jose, solar panels cost about 2.73 per watt on average. Since a 3.0-kW system is needed to cover the energy costs of a typical home in San Jose, the average price of going solar will be about \$5,695 after claiming the federal solar tax credit of 30%.

Are solar panels a good investment in San Jose?

Solar panels can save you money on power bills over many years, but they can also be a big investment. That's why many San Jose homeowners decide to finance their solar panel systems to make going solar more affordable.

How much does a 10 kW solar system cost?

This is a hard question to answer exactly, because the cost depends on a few different factors. Broadly speaking, it costs about \$13,650 for a 5-kW system and \$27,300 for a 10-kW system after the ITC is applied. You can expect to pay more if you want other solar equipment or more efficient panels, or if you have higher-than-average energy needs.
