

Saudi Arabia makes solar panels

Overview

Saudi Authority for Industrial Cities and Technology Zones, (Modon) signed a contract with Desert Technologies, a leader in renewable energy solutions and the one of the first Saudi company to manufacture and export solar panels, to establish an industrial complex in Jeddah's third industrial city. Who makes solar panels in Saudi Arabia?

Saudi Arabia's PIF has signed two solar PV manufacturing agreements with Chinese manufacturers JinkoSolar and TCL Zhonghuan Renewable Energy.

Why is Saudi Arabia deploying solar energy?

Saudi Arabia is deploying solar energy at a faster rate than any country in history. This new, clean electricity will not only decarbonize the country's grid, but it will also help to decarbonize the factories and transport systems of Europe and the Far East, by producing and exporting green hydrogen made from water and renewable electricity.

Why should Saudi Arabia invest in solar energy?

The facilities will bring the latest solar energy technologies to Saudi Arabia and create top-quality equipment that can withstand extreme heat and sandstorms. The internationally accredited Laboratory examines the efficiency and reliability of solar panels, ensuring that the technology being used meets high standards.

Can Saudi Arabia become a leading solar PV manufacturer?

"Saudi Arabia's low production costs, compared to other markets, are crucial for achieving its goal of becoming a leading solar PV manufacturer," said Yousef M. Alshammari, CEO and head of energy strategy at the London-based global energy research consultancy CMarkits.
