

# Senegal Solar Container 80kWh

## Overview

---

Is a solar energy project in Senegal the biggest in West Africa?

Work on a solar energy and battery storage project in Senegal, touted to be the biggest in West Africa once it goes live, is set to begin next month after an EPC (Engineering, Procurement and Construction) contract for its development was recently signed. The Kolda project will encompass a 60MWp PV solar plant coupled with a 90MWh storage system.

When will a solar power plant be built in Senegal?

“This agreement paves the way for the construction to begin in May 2025, with the deployment of a 60MWp photovoltaic plant coupled with a 90MWh storage system.” Voltalia is to supply the PV infrastructure for the solar power plant, which will operate on Senegal’s national grid managed by SENELEC.

Does Senegal have a solar energy sector?

Senegal's energy sector is increasingly reliant on solar power, making it essential to assess its long-term viability under changing climate conditions. This study evaluates future solar energy production in Senegal up to 2050, focusing on eight operational solar plants: Bokhol, Sakal, Malicounda, Kahone, Ten Merina, Mekhe, Ndiass, and Kael.

Will Senegal achieve 100 mw of solar power by 2030?

In Senegal, the country is set to achieve an additional installed capacity of 100 MW of solar, 100 MW of wind, 50 MW of biomass, and 50 MW of Concentrated Solar Power (CSP) by 2030 .
