

Seoul Communications Company will jointly build 5g base stations

Overview

Who is the new operator of 5G in South Korea?

Yonhap A local consortium was selected as the new operator of the 28 gigahertz (GHz) band of the fifth-generation network (5G) in South Korea on Wednesday, the science ministry said, becoming the country's fourth mobile carrier.

Does kt have a 5G network in South Korea?

As of 2024, KT is the only telecom provider in South Korea to have established a nationwide 5G SA network. KT launched its SA 5G service in 2021, becoming the first South Korean operator to do so. SK and LG U+ are operating their communication networks based on 5G NSA (Non-Standalone).

How much did South Korea pay for misleading 5G advertising?

In May, South Korea's Fair Trade Commission collectively fined the country's three carriers about \$24.8 million for allegedly using misleading advertising that exaggerated the speed of their 5G networks at their launch.

How many people use 5G in South Korea?

There were 30.76 million 5G network users in South Korea in June, accounting for about 38% of the total 80.23 million mobile subscriptions in the country, according to data from the Ministry of Science and ICT. Source: Reuters
