

# Serbia battery pack company

## Overview

---

Where are LFP batteries made in Serbia?

Serbian battery developer ElevenEs is finalising a project for the construction of a mega factory that will produce Lithium Iron Phosphate (LFP) batteries in the country's northern city of Subotica, CEO Nemanja Mikac told SeeNews.

Is there a battery Gigafactory in Serbia?

In Serbia's northernmost city of Subotica, a project is underway for a battery gigafactory with an annual capacity of 8 GWh, set for launch in 2026, while 40 GWh is planned to be added by end-2027. The developer, ElevenEs, has just finished the cell manufacturing facility, as scheduled.

Could Serbia be a technological leader in LFP battery production?

The Republic of Serbia could be a technological leader in LFP battery production in the whole world outside of China, because it has a chance to become the first in Europe to mass-produce this type of battery. The signed Memorandum with the European Union envisages a serious focus on the ecosystem of electric vehicles and battery production.

What is the first LFP battery cell facility in Europe?

The first LFP battery cell facility to supercharge electric vehicle production in Subotica, Serbia, 24. April 2023 – Today, ElevenEs, the pioneer in LFP (Lithium Iron Phosphate) cathode battery technology, announces the opening of the first industrial facility dedicated to LFP battery cell production in Europe. ElevenEs, backed by EIT InnoEnergy
