

Slovenia Power Plant Group Generator Plant

Overview

Why is there no new power plant construction in Slovenia?

Several decades of no new major power plant construction in Slovenia has driven the country, as well as some other countries, to a situation where the gap between consumption and production of electricity has become significant. The issue has become so serious that energy and climate policy has been placed at the top of all political debates.

Which power stations are in Slovenia?

From Wikipedia, the free encyclopedia The following page lists all power stations in Slovenia. Nuclear[edit] Name Location Coordinates Type Capacity, MWe District heating Operational Manufacturer Notes Krško Nuclear Power Plant Krško $45^{\circ}56'18''N15^{\circ}30'56''E$ / 45.9382023; 15.5154258 (Krško Nuclear Pow PWR 696 MW.

Which energy sources are used by Gen group power plants?

Nuclear and hydro are the two major electricity generation sources used by the GEN Group power plants. Following our electricity trading and sales strategy, we are selling increasingly large amounts of electricity from our own sources thanks to our in-house knowledge and competences.

Which European energy companies attended Gen 2024?

The conference was jointly organized by three European energy companies: EDF (France), FORTUM (Finland), and Vattenfall (Sweden). More. Annual Report GEN 2024 Interactive map of the GEN Group's international presence.

Slovenia Power Plant Group Generator Plant

Skupina GEN

The GEN Group is committed to generating a reliable supply of electricity from sustainable and low-carbon sources. Nuclear and hydro are the two major electricity generation sources used ...
