

# **Slovenia has several charges for changing battery cabinets**

## Overview

---

How will a new battery law affect foreign companies in Slovenia?

In 2023 a new battery law will come into force in Slovenia that will affect foreign companies directly. From 2023 on foreign online sellers without a national entity and VAT No. that put batteries on the Slovenian market have to join a take-back system and pay recycling fees for batteries.

How does DEKRA support the new EU batteries regulation?

DEKRA advises everyone affected by the new EU Batteries Regulation not to waste time. Developed in accordance with emerging regulations and recognized standards, our wide-ranging services provide extensive support. In August 2023, the new Batteries Regulation for the EU entered into force.

What is the battery Regulation EU 2023/1542?

Recognising the importance of batteries in the transition towards a sustainable future, the European Union (EU) has introduced comprehensive regulations. The Battery Regulation EU 2023/1542 aims to ensure that batteries placed on the European market are sustainable and safe throughout their life cycle, including all actors and their activities.

What are EU rules on batteries?

EU rules on batteries aim to make batteries sustainable throughout their entire life cycle – from the sourcing of materials to their collection, recycling and repurposing.
