

Solar Street Lights in Auckland New Zealand

Overview

Who is solar lighting NZ?

Solar Lighting NZ is proud to have exclusive sale and distribution rights to the SBL lighting bollards, Orca solar commercial lights, overhead lighting and domestic solar lighting solutions. We provide comprehensive commercial and domestic solar lighting solutions to ensure our customer's needs are met with economical and reliable solar lighting.

How many street lights are there in New Zealand?

In 2009 the majority of street lights in New Zealand were high-pressure sodium lamps. There were over 330,000 street lights across the country, running for over 4,000 hours each per year, consuming some \$18 million worth of electricity. The focus in the early 2000s was on lighting that was cheaper and more energy-efficient.

Where are leadsun solar lights made?

Explore Leadsun solar lighting solutions at MHL. Designed for efficiency and sustainability, Leadsun's smart solar LED street lights provide reliable, off-grid illumination for urban, pathway, and public space projects across New Zealand. Designed and manufactured in Australia.

Are solar street lights a good idea?

Solar powered street lights are a great way to avoid heavy installation costs which require digging 600mm trenches to meet NZ standards. Solar street lighting has become a lot more popular with government developments, council's and other commercial applications. Do your bit for the earth and buy solar street lights today!
