

# **Solar container outdoor power AC DC conversion**

## Overview

---

What is a mobile solar container system?

The mobile solar container system includes solar panels, storage batteries, inverter, mounting brackets, and accessories. Solar panels collect energy from the sun and store it in the battery bank, and the inverter converts it to AC power for use.

What is PCS power conversion system energy storage?

PCS converter for battery energy storage in commercial and industrial application. PCS power conversion system energy storage is a multi-functional AC-DC converter by offering both basic bidirectional power converters functions of PCS power and several optional modules which could offer on/off grid switch and renewable energy access.

Does SCU offer a power conversion system for battery energy storage?

SCU provides PCS power conversion system for battery energy storage in commercial and industrial application. With modular design and multi-functional system, our hybrid inverter system can offer on/off grid switch and renewable energy access. Contact SCU for your energy storage PCS now!.

What is a PCS power converter?

Ranging from 50kW to 250kW, the PCS converter well fits the requirement of Battery Energy Storage in commercial and industrial applications. Both Energy Storage PCS power conversion system and Lithium-ion Battery System are made by SCU in house.

## Solar container outdoor power AC DC conversion
