

Solar curtain wall installation in Pakistan shopping mall

Overview

What is a photovoltaic curtain wall?

They enhance thermal comfort and help prevent the greenhouse effect. A standard curtain wall offers no return on investment. In contrast, a photovoltaic curtain wall not only insulates the building but also generates power for over 30 years. This reduces monthly electricity bills and ultimately pays for itself over time.

Which is the best solar company in Pakistan?

Alpha Solar is the only solar company in Pakistan that offers solar systems on installments with a 50% down payment and easy monthly installments ranging from 6 months to 1 year, with 0% markup and without any bank affiliations.

Is alpha solar affiliated with any commercial bank in Pakistan?

Alpha Solar is proud to announce that we are affiliated with all commercial banks listed under the State Bank of Pakistan's solar panel installation financing scheme. This means that regardless of your bank affiliation for solar financing, Alpha Solar will be at your doorstep for solar panel installation.

Does Photovoltaic Glass fit in a curtain wall?

No, the BIPV photovoltaic glass structurally does not differ from other types of conventional glazing. Therefore, it is integrated into the building envelope (curtain wall, façade, or skylight) like any construction material. What solar control and comfort advantages does photovoltaic glass offer in a curtain wall?
