

Solar energy storage project installed in Gaborone

Overview

What is the 80 MW Gaborone solar project?

The “80 MW Gaborone solar project” was a 5 year implementation project comprising the implementation of 7 solar PV projects and the construction of a local PV panel assembly factory. The services rendered for the “80 MW Gaborone solar project” here: .

Is Botswana a good country to invest in solar energy?

Botswana had the goal to achieve 25% renewables by 2030 and the need to increase installed generation capacity in the medium term and had also one of the best solar resources in the world and has currently generation units in its portfolio with running costs higher than the cost of solar energy, as is the case of the diesel Orapa unit.

Does Kom-solar offer high-efficiency rooftop solar installations?

Kom-Solar delivers high-efficiency rooftop solar installations for a variety of roof types including Klip-Lok, IBR, tiled, and custom structures. Our systems are carefully engineered to match your roof’s profile and energy demands—offering clean energy without disrupting your existing operations.
