

Solar glass component agent

Overview

What are solar glass products?

Available with added functionalities, such as transparent conductive coatings or anti-reflective coatings, our solar glass products not only offer durable transparent protection to solar panels, but also become a functional component of solar modules.

What makes Acht a top Photovoltaic Glass manufacturer?

The company is a prominent player in the photovoltaic glass market, offering ultra-clear rolled glass and TCO glass essential for solar energy applications. ACHT's advanced technology, R&D system, and extensive corporate culture have solidified its position as a top photovoltaic glass manufacturer.

Which solar glass products are suitable for thin film photovoltaic technology?

Range of coated solar glass products designed for thin film photovoltaic technologies, including a comprehensive choice of TCO glass (Transparent Conductive Oxide coated glass) products with haze and conductivity levels optimised to suit each specific thin film photovoltaic solar technology, also available on low iron glass.

What is Solar Photovoltaic Glass?

This article explores the classification and applications of solar photovoltaic glass. Photovoltaic glass substrates used in solar cells typically include ultra-thin glass, surface-coated glass, and low-iron (extra-clear) glass.
