

Solar large solar panel solar light

Overview

What is a large solar panel?

Our "large" solar panel category ([click here for small solar panels](#)) includes solar panels generally over 200 watts.

Which solar panels have the highest efficiency?

The Solaria line offers some of the highest efficiency 60 cell panels for those with precious, limited space on their roofs. Need the max value for the lowest price?

.

Why are 60 volt solar panels more efficient?

As cell sizes grew larger, smaller 60 cell panels (approximately 20 volts nominal) became popular for their handling ease. Technology has also evolved to squeeze more watts out of the same footprint, meaning that panels continue to become more efficient. It's easy to get caught up efficiency numbers.

What should I include in my solar battery charger?

Some items you may need to include in your solar powered system or solar battery charger alongside our powerful solar panels include charge controllers, battery boxes, panel mounting, and inverter accessories for fixed or portable power. Our portfolio of large panels "cover the bases" when it comes to purchasing criteria for larger solar panels.
