

# Solar panel shipping price

## Overview

---

It costs \$2.50-8 per panel depending on panel type and shipment volume, but takes 5-7 weeks for sea freight transit (35-47 days door-to-door), or 8-10 weeks total including typical 2-4 week production time. How do I ship solar panels from China?

Shipping solar panels from China to your country. Shipping solar panels from China requires careful planning and logistics management. Consider the size and weight of the panels, as well as any special packaging or handling requirements. Discuss shipping options with your supplier, including air, ocean or ground freight.

How much do solar panels cost?

Global solar panel pricing varies wildly. Manufacturing locations dramatically affect final costs. China produces the world's cheapest solar panels at \$0.13-\$0.18/watt. Vietnam and Malaysia follow at \$0.18-\$0.22/watt. US/EU panels cost \$0.30-\$0.50/watt. Key Insight: Cheapest doesn't mean lowest quality.

How are solar panels shipped?

Most solar panels are shipped via 20ft or 40ft containers. Depending on the quantity, you may choose between FCL (Full Container Load) or LCL (Less than Container Load). FCL: If you are importing a large number of solar panels, booking a full container is cost-effective and provides better security for your goods.

Are solar panels cheaper in China?

The government offers subsidies, which make polysilicon cheaper. Furthermore, there is the low cost of materials, labour, and electricity in the region. Hence, China's solar energy products are more affordable than the alternatives. 5) How Much Does a Solar Panel Cost in China?
