

Solar power generation and energy storage operation plan in New York USA

Overview

How many solar and energy storage projects are there in New York?

Governor Kathy Hochul today announced awards for 22 large-scale solar and energy storage projects in New York. These projects will deliver enough clean, affordable energy to power over 620,000 New York homes for at least 20 years.

Will Nypa & Albany Co-develop a solar project in 2025?

In April 2025, Hochul announced that NYPA and the City of Albany partnered to co-develop a 1.5 MW solar project in the city, the first to be developed under the REACH program.

What did New York Power Authority do?

The Power Authority formed new business structures, filled key personnel roles, made regulatory filings, secured tax rulings, held two conferral processes to engage with stakeholders throughout the state, and established a new renewable energy subsidiary -- the New York Renewable Energy Development Holdings Corporation.

Does Nypa have a new power authority?

In the time since Nw York Gov. Kathy Hochul approved the Power Authority's expanded authority in May 2023, NYPA has made major progress toward the development of new renewable energy projects.
