

Solar power satellite factory in Oman

Overview

As reported by MEED on May 8, 2025, JA Solar OM will establish a large-scale solar cell and module production plant in Sohar Port and Freezone, with expected annual capacities of 6 GW for solar cells and 3 GW for solar modules. What is JA Solar doing in Oman?

Shanghai-headquartered JA Solar announced last month that it plans to invest 3.96 billion yuan (equivalent to about \$540 million) in a world-scale facility in the Sultanate of Oman, with an annual capacity of 6-gigawatt high-efficiency solar cells and 3-gigawatt high-power solar modules.

Who owns the first solar plant in Oman?

Equity stake owned by Nebras Power Amin Renewable Energy Company owns the first utility scale solar plant in Oman, Amin IPP solar plant. Amin IPP has a total capacity of 125 MW. The plant started its commercial operation in Q2 2020.

How much money has Oman invested in silicon & solar?

Over the past 12 months, Oman has attracted investment pledges aggregating over \$2.5 billion in a trio of silicon and solar manufacturing projects – all backed by Chinese players.

Does Oman need solar modules?

Oman's requirement of solar modules to meet its substantive renewable energy and green hydrogen development goals is prodigious. A major manufacturer of high-performance photovoltaic products, JA Solar oversees a network of manufacturing bases and 13 sales subsidiaries around the world.
