

Solar power station for sale in New-Zealand

Overview

Why should you buy a portable power station in New Zealand?

New Zealanders love staying connected while they're out and about on holiday. Our range of portable power stations and solar-powered products ensures your devices are constantly charged on the go. Get the amps you need on-location and enjoy freedom from noisy generators. Shop for portable power solutions at Trade Tested online.

How much does a power station Solar System cost?

Pricing starts at \$29,500 inc GST for an 'average' home. The Power Station Independent Energy System (IES) is a new concept in independent living. Made by Power Station in New Zealand, it's a fully off-grid solar power system that can be installed in an existing grid-connected home.

Why should I buy a portable power station?

If you're going camping, off the grid or preparing for an emergency, our portable power station provides enough power to keep your appliances or devices operating.

Can you finance a solar system in New Zealand?

You can power your home with a solar system today and pay it off over time—with finance rates as low as 0–1%. We work with leading finance partners, including Gem Visa, Q-Mastercard, and Purple Visa. These options enable you to get started immediately. Solar loans are available through major New Zealand banks like Westpac and BNZ.
