

Solar powered portable outlet in Croatia

Overview

Do I need a power adapter in Croatia?

If your devices are compatible with these specifications, you will not need a power adapter. However, if your devices use a different plug type or are not compatible with the voltage in Croatia, you will need a power adapter and/or a voltage converter/transformer.

Do I need a voltage converter for a Croatia electrical outlet?

Whether or not you need a voltage converter when plugging your items into a Croatia electrical outlet depends on two things: the voltage requirement of your devices and the country you're coming from. If you plan to bring a hair dryer, straightener, or other devices that do not operate on 220V/50Hz, make sure to bring a voltage converter.

What plugs are used in Croatia?

We've got you covered with this comprehensive guide on electricity in Croatia to ensure all of your electronic devices stay fully charged and functional during your stay. Plugs for Croatia are: Type C: also known as the Europlug, is a two-pin plug commonly used in most European countries, as well as in parts of Asia and Africa.

What is the standard voltage in Croatia?

The standard voltage in Croatia is 230 V, and the standard frequency is 50 Hz. If you're coming from a country that uses a different voltage, you may need a voltage converter or transformer in addition to a plug adapter. What is my country's voltage and frequency?

- Select it from our list.
