

Somaliland Rural Field Energy Storage Project

Overview

The project involves the design, supply, installation, testing, and commissioning of a 10 MW solar photovoltaic (PV) plant integrated with a 20 MWh battery energy storage system (BESS) and a 33 kV evacuation line. What is the goal of a solar project in Somaliland?

The Project Objective is to expand access to electricity in targeted rural and peri-urban communities in Somaliland. March 2023 completed. Berbera Solar Project funded by UAE. MoEM implemented solar project of 7MW funded by UAE. With Fund of USD7M this project was completed in 2021. Ongoing projects Somaliland Electricity Recovery Project.

Why is energy important in Somaliland?

Somaliland considers access to competitively priced, reliable, quality, safe and sustainable energy as an essential ingredient for the country's social-economic development.

Is energy security a national priority in Somaliland?

Somaliland treats energy security as a matter of national priority. The Somaliland: National Development Plan III (2023-2027) identifies energy as the country's driver into "a newly-industrializing, middle-income economy, providing a high quality of life to all its citizens in a clean and secure environment."
