

South Africa s deep solar integrated container

Overview

Are our energy solutions made in Africa for Africa?

We pride ourselves that our energy solutions are made in Africa for Africa.” Pre-installed 20ft solar container with all equipment for 33kWp of PV and up to 96kWh battery storage. Innovation in containerised electrification.

What is a containerized battery energy storage solution?

The Containerized Battery Energy Storage Solution (BESS) is an advanced Lithium Iron storage unit built into a customised 20ft or 40ft container. The unit is designed to be fully scalable to meet your storage requirements. Storage size for a containerised solution can range from 500 kWh up to 6.5 MWh per container. Engineered for Anything.

What is solar EPC's scalable lithium-ion containerized energy storage system?

Solar EPC's scalable Lithium-Ion Containerized energy storage system ideal for off-grid and renewable energy storage provides invaluable flexibility.

What makes our containerised solar power generation units special?

“What makes our containerised solar power generation units special,” says Tobias, “is our use of international lquality engineering and components, while still producing local content that allows us to offer a price advantage and local support. We pride ourselves that our energy solutions are made in Africa for Africa.”
