

South Asia Mobile Energy Storage Container Exchange

Overview

Can NGK be used for long-duration energy storage in Southeast Asia?

Malaysian manufacturing firm Leader Energy has tied up with BASF Stationary Energy Storage to develop long-duration energy storage projects in southeast Asia using the sodium-sulfur battery technology of NGK.

Could Malaysia's first battery energy storage system be a solution?

Malaysia's minister of works has inaugurated the country's first battery energy storage system linked to an electric vehicle charging station. Putting battery storage systems onto vessels off the coast of Singapore could be a way to mitigate the lack of suitable sites on land.

Could battery storage be a solution to Singapore's energy crisis?

Putting battery storage systems onto vessels off the coast of Singapore could be a way to mitigate the lack of suitable sites on land. Cumulative energy storage installations will go beyond the terawatt-hour mark globally before 2030 excluding pumped hydro, with lithium-ion batteries providing most of that capacity, according to new forecasts.

Will Maldives have a battery-based energy storage system?

Maldives is seeking input on flow battery-based energy storage systems for two of the country's 1,192 islands. Malaysia's minister of works has inaugurated the country's first battery energy storage system linked to an electric vehicle charging station.
