

# **Substation energy storage solar container lithium battery customization**

## Overview

---

What is a containerized battery energy storage system?

Our's Containerized Battery Energy Storage Systems (BESS) offer a streamlined, modular approach to energy storage. Packaged in ISO-certified containers, our Containerized BESS are quickly deployable, reducing installation time and minimizing disruption.

What is battery energy storage system (BESS)?

BESS is an important Lithium Battery technology that can help to improve energy efficiency, promote sustainability, and increase energy resilience. How exactly does Battery Energy Storage System work?

Battery Energy Storage System works by storing electricity in lithium-ion batteries that are housed inside a container.

What is battery energy storage system?

Battery Energy Storage System is very large batteries can store electricity from solar until it is needed, and can be paired with software that controls the charge and discharge.

What energy storage container solutions does SCU offer?

SCU provides 500kwh to 2mwh energy storage container solutions. Power up your business with reliable energy solutions. Say goodbye to high energy costs and hello to smarter solutions with us.
