

Swiss solar container battery

Overview

Where is the largest battery storage system in Switzerland?

In Kappel, in the canton of Solothurn, one of the largest battery storage systems in Switzerland is currently under construction, with a total capacity of 65 megawatt-hours. The successful delivery of all system components marks a key milestone on the path to commissioning. Primeo Energie will use our storage system to provide energy flexibility.

What is a Solax containerized battery storage system?

SolaX containerized battery storage system delivers safe, efficient, and flexible energy storage solutions, optimized for large-scale power storage projects. As the world increasingly transitions to renewable energy, the need for effective energy storage solutions has never been more pressing.

What is a container battery energy storage system?

Understanding its Role in Modern Energy Solutions A Container Battery Energy Storage System (BESS) refers to a modular, scalable energy storage solution that houses batteries, power electronics, and control systems within a standardized shipping container.

Which energy storage projects have been commissioned in Switzerland?

Axpo commissioned its BESS in February this year while utility Thurplus commissioned a 3MW system in September last year. But Switzerland was the location for one of the largest energy storage projects commissioned in recent years, a 20GWh pumped hydro energy storage (PHES) unit which started operations in June 2022 in the Canton of Valais.
