## Overview

---

Do Le solar lights illuminate from 4 sides?

Even Lighting From 4 Sides - Unlike many other competitors, LE solar lights illuminate from 4 sides, cover more spaces and provide excellent illumination for your home or business. Please make sure the switch is in ON position before installation. The wall light only illuminates IN THE DARK when human movement is detected.

Do solar wall lights work with up and down?

Outdoor solar wall lights with up and down can add a lot of elegance to a yard, a house's side, or a wall, casting shadows while still providing plenty of light. How can I test if the lights work properly?

.

What is a solar wall accent light?

Area Accent Illumination: For outdoor areas like exterior walls, porches, entrances, pillars, walkways, decks, railings, stairs, patios, backyards, and gardens that require focused lighting and decoration, our solar wall accent light offers both a safe illuminated environment and meets modern aesthetic decoration needs.

What is a 4X super bright solar yard light?

4x Super Brightness: Our solar yard lights with a unique top and bottom emitting lens design, boast 4x brighter illumination than others. Simply press the switch and it will provide you with light all night long for 8-10 hours of continuous illumination.
