

Thailand Island Solar Air Conditioning Company

Overview

Who installs solar panels in Thailand?

We are solar professionals with many years of experience in the photovoltaic industry across Asia. We install home rooftop solar systems in various locations across Thailand, including Hua Hin, Pattaya, Phuket, and Buriram.

What is Pac hybrid solar?

PAC Hybrid Solar is a VRF solar energy system, which saves energy as well as electricity costs for us. "By using PAC Pooltemper we don't have to worry about fussy problems or a broken machine anymore. It fits the needs of our business very well."

What are hybrid solar air conditioners?

Hybrid solar air conditioners are the next generation solar air conditioners. Our patented technology is able to draw power from the solar panels and directly power the air conditioner system. Enovatek Energy also offers the 100% Off Grid Solar DC Air Conditioner for residential spaces in Singapore.

Are solar air conditioners good for the environment?

Another major benefit is the positive impact these air conditioners have on the environment. It's a well-known fact that solar energy is the cleanest form of energy which means it's entirely free from carbon dioxide and other harmful greenhouse gases.
