Which ups is best for a home office setup?

For a dependable UPS that perfectly suits a home office setup, the APC Back-UPS 425VA stands out as the top choice. This model offers reliable power backup for essential devices such as computers, routers, and modems. Its compact design makes it a great fit for small spaces, ensuring you can continue working even during power interruptions.

Which ups should I buy?

For larger setups that need extended runtime, the APC BR1500MS2 is the ideal pick. This UPS offers the highest peak power output and the most robust backup duration among our recommendations, making it perfect for high-performance PCs, networking equipment, and other critical devices.
