

Three-phase mobile energy storage container for water treatment plant in East Timor

Overview

What is a mobile water treatment system?

Mobile solutions use our Actiflo®, Hydrotech Discfilter™, reverse osmosis, ion exchange and multimedia filtration technologies, delivered through trailers, containers and skid-mounted systems. Mobile water treatment systems offer a cost-effective alternative to fixed plants across many industrial environments.

What is a water treatment plant in container?

A water treatment plant in container is a complete solution, assembled and tested off-site at our factory. The solution is complete with all internal piping and wiring factory-built. This makes the plant ready for use when supplied, which financially can be an advantage, also in relation to the reduced amount of time used for deployment.

What is containerized mobile wastewater treatment plant?

Containerized mobile wastewater treatment plant is the name given to the systems that work with the plug and play principle by mounting all the equipment in the factory in standard iso containers or specially produced containers.

What is a mobile water treatment & purification plant?

Mobile water treatment and purification plants are designed to cover emergency, temporary solutions such as construction sites or long-term water treatment requirements. These mobile systems are installed inside a seaworthy 20 or 40 ft containers or in combination to form complete systems with advanced water treatment and purification technologies.
