

Transformer breaker in China in New-Zealand

Overview

Who makes transformers in China?

Jiangsu Huapeng, a Chinese family-owned transformer manufacturer located in Liyang city, Jiangsu province, is the leading manufacturer of transformers in China according to a study by the China Transformer Manufacturers Association. They produce three-phase, pole-top, oil immersed, and dry type transformers.

Do I need a transformer in New Zealand?

New Zealand operates on 230 volts (50hz), so appliances on other voltages will need a transformer. Most devices state their operating voltage near where the power cord plug. If the voltage isn't clear then you may need to check on the manufacturer's website for more information. You will also need an adaptor to suit NZ sockets.

Where are Transformers made?

From our head office and six plant manufacturing facility in Auckland, operational facilities in Melbourne and Perth, and manufacturing plant in Jakarta, we are able to produce a full range of distribution transformers, up to 33kV for electricity supply networks, industrial sites and mining projects.

What are the different types of power transformers?

The products include 10-500kV Power Transformer, Circuit Breaker, Disconnecter, CT, PT, Arrester, Switch panel, Mobile Substation, and all kinds of Power Generators. The products include 500kV, 330kV, 220kV and 110kV ultra-high voltage transformers, 35kV and below dry-type transformers, oil immersed transformers, amorphous metal transformer.
