Martin Přivora Sales representative CZ/. Ladislav Křížek Sales representative CZ/. Vlastimil Chaloupka Sales Representative DE. SOLSOL s.r.o. has been operating on the market since 2012. The company deals with the wholesale of solar panels, inverters and bateries from the world's leading manufacturers.

What are transparent solar panels used for?

Our transparent solar panels are perfect for a range of applications, including skylights, roofing, and façades, enhancing both functionality and aesthetic appeal. Customize the level of transparency according to your project requirements and benefit from a seamless integration into any design.

What are bifacial solar panels?

The concept behind the bifacial solar panels is that the PV modules receive the incident solar rays on the front side as well as on the rear side of the panel to generate electricity. Therefore, the bifacial solar panels can exploit much more solar irradiance than the mono facial modules resulting in more power output.

Are bifacial solar panels better than mono facial solar panels?

Therefore, the bifacial solar panels can exploit much more solar irradiance than the mono facial modules resulting in more power output. Amerisolar's transparent solar panels have the full certifications to guarantee you that you only purchase the best solar panels.
