

Uninterruptible Power Supply for New York Traffic

Overview

What is a marathon power ups system?

Traffic and Ruggedized Uninterruptible Power Supplies — Marathon Power UPS UPS systems suitable for a wide range of transportation applications and extreme temperature environments. UPS systems suitable for a wide range of transportation applications and extreme temperature environments.

How do power disturbances affect traffic signals & intelligent transportation systems?

Power disturbances that impact traffic signals and Intelligent Transportation Systems (ITS) not only create potentially dangerous conditions for transportation users, but also often result in immediate gridlock and congestion on arterial roads and outlying intersections - impacting air quality, noise levels, and transit times.

Can backup power reduce the root cause of transportation problems?

While this is no surprise to those familiar with the challenges of transportation, many may be unaware that strategically deployed and reliable backup power can minimize or even neutralize the root cause of many of these problems.

Uninterruptible Power Supply for New York Traffic

Battery Backup Systems

The TC UPS System provides backup power to traffic control signal equipment. It consists of the TC Uninterruptible Power Supply (UPS) System, the Auto Transfer Switch (ATS), and ...
