

Uninterruptible power supply UPS and AC screen

Overview

What is an uninterruptible power supply (UPS)?

Uninterruptible Power Supply (UPS) | Schneider Electric Hong Kong, China. An Uninterruptible Power Supply system provides emergency power when the main source fails, using batteries to ensure a continuous supply. It conditions incoming power, protecting equipment from fluctuations. We offer various UPS power supply types for different needs.

How do I Choose an uninterruptible power supply for DC applications?

Our uninterruptible power supplies for DC applications provide reliable protection against supply interruptions. Select the appropriate DC UPS for your application. Our uninterruptible power supplies for AC applications provide a pure sine curve at the output. Select the ideal AC UPS and ensure superior system availability.

Are battery-backed uninterruptible power supplies reliable?

Reliability of power sources is an increasing challenge in many sectors and battery-backed uninterruptible power supplies (UPS) are one option to protect and keep electronic equipment operating in the event of grid power failure.

Why do you need an UPS system?

A UPS supplies power even in the event of mains failure and protects your system against supply interruptions. We offer UPS solutions for DC and AC applications where the functionality and design are optimally tailored to the requirements of various different industries.

Uninterruptible power supply UPS and AC screen

Uninterruptible Power Supply (UPS)

An Uninterruptible Power Supply system provides emergency power when the main source fails, using batteries to ensure a continuous supply. It conditions incoming power, protecting ...

Line-Interactive UPS Tower, 1000VA/500W, 8 Outlets , Eaton

The SMART1000LCD SmartPro® LCD 120V 1000VA/500W Line-Interactive Uninterruptible Power Supply provides battery backup and AC power protection against blackouts, brownouts, power ...

Uninterruptible Power Supplies (UPS)

Uninterruptible Power Supplies (UPS) In a variety of environments, including data centers, hospitals, and commercial buildings, uninterruptible power supplies (UPS) are essential for ...

Uninterruptible Power Supply (UPS) , Nexperia

4 days ago · Reliability of power sources is an increasing challenge in many sectors and battery-backed uninterruptible power supplies (UPS) are one option to protect and keep electronic ...

Uninterruptible Power Supply (UPS)

3 Phase UPS power protection, solving today's energy challenges while setting the standard for quality and innovation with fully integrated solutions for enterprise-wide networks, data ...

SmartPro LCD 120V 1500VA 900W Line

Apr 5, 2017 · Description The SMART1500LCD SmartPro LCD 120V, 1500VA/900W Line-Interactive Uninterruptible Power Supply provides battery backup and AC power protection ...

Uninterruptible power supply (UPS) , Phoenix Contact

A UPS supplies power even in the event of mains failure and protects your system against supply interruptions. We offer UPS solutions for DC and AC applications where the functionality and ...
