

Uninterruptible power supply equipment for home use in Southern Europe

Overview

What are the best uninterruptible power supplies?

UPS Systems plc offers a wide range of uninterruptible power supplies including those from Riello UPS, APC UPS and Eaton UPS as well as the UPS battery packs designed to go with them.

Do I need a home UPS (uninterruptible power supply)?

If you're concerned about your data being lost due to power outages at home, you need a UPS (uninterruptible power supply) for domestic use. The requirements for a home UPS (Uninterruptible Power Supply) are unlikely to be as intensive as what you require for business with an expected operating range of 0-5kVA.

Who do you partner with for uninterruptible power supplies?

We only partner with suppliers who meet our stringent supply chain standards for quality (ISO 9001), health and safety (ISO 18001), and environmental management (ISO 14001). Browse our full selection of uninterruptible power supplies or contact us today if you have any questions regarding our range. Call 0800 088 5412.

Why should you choose a ups power supply?

The selection includes large UPS supplies for rack-mounted cabinets as well as smaller units for use with a single computer setup. UPS power supplies offer convenience and security. They allow you to better care for your equipment's needs and protect it against unforeseen events.
