

Ups uninterruptible power supply water pump

Overview

What is a water amp UPS (uninterruptible power supply)?

A WIMES (Water Industry Mechanical and Electrical Specifications) UPS (uninterruptible power supply) is a must have for water companies who want to meet their AMP commitments.

What is a UPS (uninterruptible power supply)?

A UPS (uninterruptible power supply) sits between an alternative source of power – such as a standby diesel generator – and protected loads.

Why do water companies need ups?

Water companies need UPS systems to protect critical process control equipment, and critical infrastructure (valves and pumps) in water treatment and wastewater treatment processes. And UPS systems must meet WIMES (Water Industry Mechanical and Electrical Specifications) requirements.
