

Vaduz explosion-proof solar panel manufacturer

Overview

What is ex solar PV system?

In tandem with the global shift towards sustainable practices, Ex solar PV system is an alternative and eco-friendly solution to provide power to O&G platforms.

What is ex solar power solutions?

Ex Solar Power Solutions fully certified with ATEX and IECEx. Suitable to be installed in Zone 1 & 2 hazardous area. Uninterruptable solar power systems is available in standalone power system, or be paired with navigations aids products for off-grid operations. High quality engineered navigational aids with complete solutions.

What is uninterruptable solar power system?

Uninterruptable solar power systems is available in standalone power system, or be paired with navigations aids products for off-grid operations. High quality engineered navigational aids with complete solutions. Comprises of audio and visual for marine application.

Which solar panels are ATEX & IECEx certified?

For companies like JCE, which manufactures the SPA series of ATEX and IECEx-certified solar panels, compliance with both certification systems allows their products to be used across industries worldwide, particularly in challenging environments such as offshore oil & gas installations and chemical processing plants.
