

Vatican Energy Storage Future

Overview

Will a Vatican Radio station be installed in 2025?

The future installation would be projected to “ensure, not only the power supply of the radio station existing there, but also the complete energy support of Vatican City State,” he wrote. Fast forward to 2025, and the project is completed.

Does Vatican City have solar power?

Yes. Vatican City has joined Albania, Bhutan, Nepal, Paraguay, Iceland, Ethiopia and the Democratic Republic of Congo to become one of just eight countries in the world to generate 100% of its electricity from renewable sources. Several church organizations around the world are making the move to solar.

What did Pope Francis say about solar power?

“Fratello sole” or “Brother Sun” was Pope Francis’ Apostolic Letter that detailed how solar power is an invitation for people around the world to make lifestyle changes to counter global warming and the “pervasive” use of fossil fuels.

What does Catholic energies do?

Catholic Energies provides expertise to design, implement, and finance sustainable projects that reduce energy costs, enabling other Catholic organizations to use those savings in support of their critical ministries. It’s not just the Catholic Church and the Holy See that are transitioning their parishes to renewable energy sources like solar.
