

Villa roof solar glass

Overview

What is a solar roof?

Solar Roof is comprised of both glass solar tiles and steel roofing tiles. Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather protection.

Are solar roof tiles a good choice?

Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather protection. With a 25-year warranty, Solar Roof will continue to produce clean energy and protect your home for decades to come.

Does solar roof have a warranty?

With a 25-year warranty, Solar Roof will continue to produce clean energy and protect your home for decades to come. Our in-house team of energy professionals has installed nearly 4.0 GW of solar across approximately 480,000 roofs—cumulatively generating over 25.0 TWhs of clean energy. From design to power on, we take care of everything.

What is Photovoltaic Glass?

Photovoltaic glass represents the natural evolution of solar energy: a smart, aesthetic, and efficient way to generate electricity from the very structures that surround you. You no longer have to choose between design and sustainability—with this technology, you can have both.
