

# Waterproof Folding Container for Field Operations

## Overview

---

Are portable storage containers waterproof?

Our portable storage containers are 100% weather resistant. The roofs are corrugated to allow for optimal durability and water runoff, and the floors are coated and sealed to provide a waterproof surface.

What is a military storage container?

These containers provide secure and weather-resistant storage for equipment, supplies, and mission-critical assets. Customizable features such as climate control, interior shelving, and advanced locking mechanisms ensure they meet the specific needs of military logistics while offering optimal protection and efficiency in the field or on base.

What is a foldable steel storage container?

Foldable steel storage containers come in three lengths, each with a standard width of 2.1m. The smallest size is compact enough to be used as a garden shed, even in a small back garden in the most restricted of spaces. These products are also modular, so you can expand on storage space at any time by joining three units together.

Are foldable steel storage containers safe?

As well as being highly flexible, foldable steel storage containers are also very secure. They are made from galvanised steel which means they are theft and vandal proof.
