

# **Waterproof Folding Container for Wastewater Treatment Plants**

## Overview

---

What is a containerized wastewater treatment plant?

A containerized wastewater treatment plant is a wastewater treatment system that is fully integrated into a container. For uncomplicated and fast transportation, we use 10, 20 and 40-foot shipping containers in accordance with the international ISO standard for our KLARO container systems.

What is a water treatment plant in container?

A water treatment plant in container is a complete solution, assembled and tested off-site at our factory. The solution is complete with all internal piping and wiring factory-built. This makes the plant ready for use when supplied, which financially can be an advantage, also in relation to the reduced amount of time used for deployment.

What is a clearfox® containerized wastewater treatment plant?

ClearFox® containerized wastewater treatment plants offer a highly cost-efficient solution with low capital and operating expenses, as they require no extensive planning, civil works or permanent buildings. The system only needs to be placed on a solid base and connected.

What is a containerized water treatment system?

An advantageous aspect of containerized solutions is its function as a mobile water treatment system for different sites once a task is completed. These systems are made to be flexible and durable for use in any setting, and come equipped with many options. Some of the aspects that our mobile water treatment systems are designed to address include:

## Waterproof Folding Container for Wastewater Treatment Plants
