

Western Europe High Efficiency solar Module Project

Overview

Where is Europe's largest PV module Gigafactory located?

Holosolis announced Europe's largest PV module gigafactory, to be built in Moselle, France. Aiming to accelerate Europe's solar PV manufacturing capabilities to ensure continental energy security, the new production site will see the capacity of Europe's current largest factory bested by almost 70%.

Could EU-funded solar technology boost a switch to solar energy?

An EU-funded project has developed a European version of high-efficiency, next-generation solar technology and a low-cost manufacturing process. The innovative solar cells could boost a switch to solar energy and recharge European solar-panel production.

Are solar panels made in Europe?

Solar cells and panels, or modules, are central to Europe's commitment to using renewable energy to meet up to a third of its energy needs by 2030. But while the energy will be home produced, almost none of the necessary hardware is made in Europe. Most mass-produced cells and modules are from China, Taiwan and Malaysia, according to an EU report.

Will Europe have its own IBC solar technology?

Europe is now closer to having its own version of this technology. The EU-funded NEXTBASE project has developed highly efficient IBC solar cells in the silicon heterojunction configuration (IBC-SHJ). The NEXTBASE cells can convert 25.4 % of the solar energy they capture into power.

Western Europe High Efficiency solar Module Project

[JinkoSolar Delivers More than 1.1 Million ...](#)

1 day ago · Mr. Frank Niendorf, General Manager of JinkoSolar Europe, commented, " Rapidly expanding green energy production in Germany ...

[HERCULES tasked to produce the next ...](#)

Dec 8, 2025 · The European HERCULES project targets the development of the next generation of photovoltaics in Europe in developing high ...

Large-Area Perovskite Solar Module Manufacturing with High Efficiency

Nov 24, 2025 · In this context, the EU-funded LAPERITIVO project aims to develop large-area, stable perovskite solar modules with high manufacturability to advance the production of ...

JinkoSolar Delivers More than 1.1 Million Tiger Neo Modules ...

1 day ago · Mr. Frank Niendorf, General Manager of JinkoSolar Europe, commented, " Rapidly expanding green energy production in Germany and Europe is the only way forward to ...

Meyer Burger wins EU funding for a 3.5

...

Jul 14, 2023 · The project "HOPE" (High-efficiency Onshore PV module production in Europe) is now eligible for funding. Project HOPE involves ...

HERCULES tasked to produce the next generation of ...

Dec 8, 2025 · The European HERCULES project targets the development of the next generation of photovoltaics in Europe in developing high efficiency solar cells and modules to reach a ...

Meyer Burger wins EU funding for a 3.5-gigawatt production ...

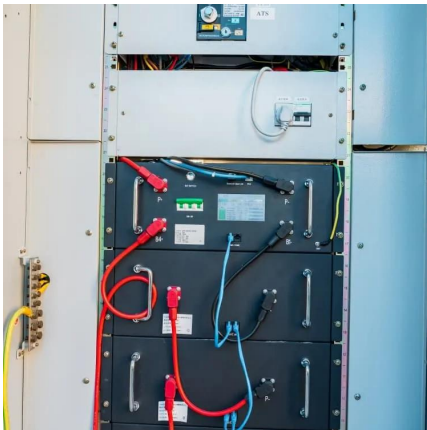

Jul 14, 2023 · The project "HOPE" (High-efficiency Onshore PV module production in Europe) is now eligible for funding. Project HOPE involves the construction of an additional 3.5 gigawatts ...

Projects

5 days ago · 3Sun 3Sun factory, founded in Catania in 2010, is set to become Europe's largest factory producing high-performance bifacial photovoltaic modules. 3Sun Gigafactory combines ...

[LONGi and Riner Europe Sign 100MW Module Supply ...](#)

May 13, 2025 · LONGi, the world's leading solar technology company, has officially signed a 100MW photovoltaic module supply agreement with Riner Europe during Intersolar Europe ...

[Mass-produced European solar panels on the ...](#)

Dec 5, 2025 · An EU-funded project has developed a European version of high-efficiency, next-generation solar technology and a low-cost ...

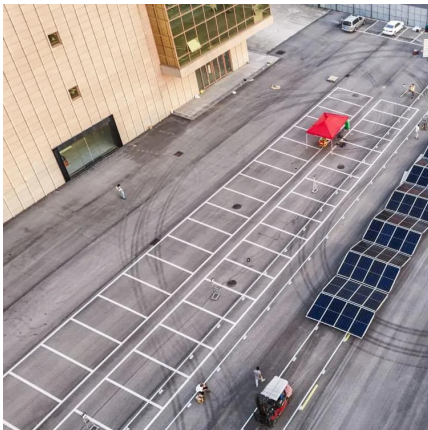

[Mass-produced European solar panels on the horizon](#)

Dec 5, 2025 · An EU-funded project has developed a European version of high-efficiency, next-generation solar technology and a low-cost manufacturing process. The innovative solar cells ...

[LONGi and Rinergy Europe SARL Sign 100MW Module ...](#)

May 12, 2025 · LONGi, the world's leading solar technology company, has officially signed a 100MW photovoltaic module supply agreement with Rinergy Europe SARL during Intersolar ...

LONGi Green Energy Technology : Announces Landmark 550 MW Solar Module

Athens, 31st of July 2025 - LONGi, global leader in solar technology is proud to announce the completion of module supply for a monumental 550 MW PV plant project in the old lignite ...

[LONGi Announces Landmark 550 MW Solar Module Supply ...](#)

Jul 30, 2025 · LONGi is proud to announce the completion of module supply for a monumental 550 MW PV plant project in the old lignite mines in Western Macedonia belonging to PPC ...

Projects

5 days ago · 3Sun 3Sun factory, founded in Catania in 2010, is set to become Europe's largest factory producing high-performance bifacial photovoltaic ...

[LONGi and Rinerogy Europe Sign 100MW](#)

...

May 13, 2025 · LONGi, the world's leading solar technology company, has officially signed a 100MW photovoltaic module supply agreement with ...
