

Western Europe Power Generation and Energy Storage Projects

Overview

What is the European energy storage inventory?

The European Energy Storage Inventory comprises operational, under construction, permitted, and announced energy storage projects across Europe. A real-time dashboard for energy storage also includes their locations and technologies - chemical storage, electrochemical storage, mechanical storage, and thermal storage.

How many energy storage projects are there in Europe?

There are 147 energy storage projects under construction in Europe, with a total capacity of 14 GW, according to the European Energy Storage Inventory, launched by the European Commission. The European Energy Storage Inventory comprises operational, under construction, permitted, and announced energy storage projects across Europe.

How big is Europe's energy storage capacity?

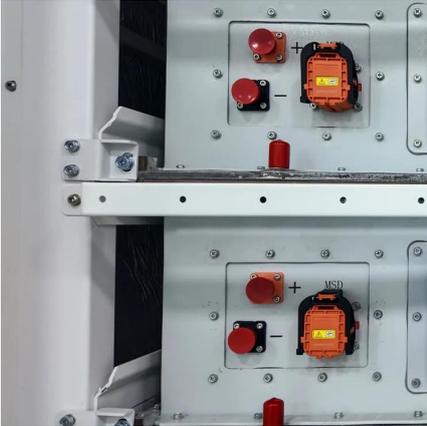

The latest edition of the European Market Monitor on Energy Storage by LCP Delta and The European Association for Storage of Energy (EASE), released today, highlights Europe's rapid expansion in energy storage capacity, which reached 89 gigawatts (GW) by the end of 2024.

How many megawatts of energy storage were installed in Europe in 2024?

Historic and forecasted megawatt installs of energy storage across Europe. Image: EASE / LCP Delta. A total of 11.9GW of energy storage across all scales and technologies was installed in Europe in 2024, bringing cumulative installations to 89GW.

Western Europe Power Generation and Energy Storage Projects

Poland shortlists 183 energy storage projects for EU funding

2 days ago · Poland's state environmental fund says developers sought PLN 28 billion (\$7.7 billion) for 20 GW and 122 GWh of storage projects - nearly seven times the program's ...

[14 GW of energy storage capacity under ...](#)

Mar 13, 2025 · The European Energy Storage Inventory comprises operational, under construction, permitted, and announced energy ...
