

What are the Barbados Telecom PV sites

Overview

What telecommunications services are available in Barbados?

The telecommunications market in Barbados is quite competitive. The leading service providers of Flow Barbados (previously known as Cable and Wireless or Lime) and Digicel Barbados offer various cell phone deals with different billing options. They both operate on a GSM network and offer international roaming options.

How can Barbados improve its energy security & resilience?

The Ministry's objective is to improve Barbados' energy security and resilience, as well as reduce its dependence on imported fossil fuels, resulting in the retention of foreign exchange and the improvement of the country's economic competitiveness. Key activities include: Implementing Public Education and Public Awareness activities.

Will Barbados become a 100% Green Island-state by 2030?

The focus of the Ministry is to advance legislation, policy and programmes to give life to Government's stated policy of transitioning Barbados to the world's first 100% green energy and carbon neutral island-state, by 2030.
