

What is the Zero Carbon Energy Storage Project

Overview

What is the 'Zero Carbon Project'?

The “Zero Carbon Project” aims to support the world’s transition to a net-zero future. Schneider Electric has launched the Zero Carbon Project. Under the new initiative, the company will partner with its top 1,000 suppliers – which represent 70% of Schneider’s carbon emissions – to halve their operations’ CO2 emissions by 2025.

How can the construction industry deliver a zero carbon built environment?

To deliver a nearly zero carbon built environment, the construction industry must increasingly be structured to be integrated in the design, construction, and operation of its products and services.

What is a carbon-free industrial park?

(Xinhua) Carbon-free industrial parks aim to achieve zero carbon emissions by integrating clean energy, green architecture, smart management systems and circular economy practices.

Will China build a zero-carbon Park in 2024?

In 2024, a plan was unveiled to build a zero-carbon park in Beijing's Daxing District. Provinces and regions like Guangxi, Yunnan and Fujian have included zero-carbon park construction in their 2025 government work reports. China has pledged to peak carbon emissions by 2030 and reach carbon neutrality by 2060.
