

Wholesale Iv switchgear panel in Canberra

Overview

What is LV switchgear panel?

The LV Switchgear panel does not take up much of your room space and is also quite durable. Apart from serving as a virtual device in protecting your appliances from short circuits, LV Switchgear Panel also helps in the isolation of parts of installation as well as remote local switching.

Does LV switchgear have a busbar system?

A fully insulated busbar system is also available if required. The LV switchgear is offered in Form 1 through to Form 4b, front or rear connected, in either single or double sided arrangements. It is suitable for both indoor and outdoor applications with IP ratings from IP43 up to IP56.

Does Bovara sell switchgear?

The company is an electricity distributor in Queensland, indicating their involvement in the electrical infrastructure that may include switchgear. Bovara is a prominent manufacturer of electrical equipment in Australia, offering a wide range of products including Load Break Switches.

What types of LV switchgear are available?

The LV switchgear is offered in Form 1 through to Form 4b, front or rear connected, in either single or double sided arrangements. It is suitable for both indoor and outdoor applications with IP ratings from IP43 up to IP56. For more information on our LV Switchgear, contact us for a brochure or data sheet.
