

# Wholesale transformer breaker in Philippines

## Overview

---

Who makes the best Transformers in the Philippines?

These are 2 transformers that have functional importance in generating electricity and supplying it to businesses and homes. Powertrac is, dare I say, another great transformer maker from the Philippines. Their customer relations have been established for more than a decade.

Who are the suppliers of Dongwoo electric instrument transformers?

I am interested to represent Dongwoo Electric Instrument Transformers for the Philippine market. Alce (Turkey), ABB and Alstom/Areva from Europe are currently major suppliers supplying local demand I strongly believe this market has room another competitive supplier like .

Who is Phil-Transformers?

Phil-Transformers has been in the transformers industry for over 30 years. They are Philippines-based and have established themselves as a trusted manufacturer. From electricity generation to telecommunications (the technology that telecommunication uses), their transformers are widely applied.

What is a potential transformer?

Mounted on switchgear (3.3/6.6 kV) as an auxiliary power source for circuit breaker operation. Insulated with Araldite® epoxy resin, these potential transformers also feature a Class-F heat-resistant insulation material for the coils. Two fuses on the primary side offer protection against overload and short circuit currents.
