What is a circuit breaker for a winch?

A circuit breaker for a winch is a device that protects the electrical system from overload. When power comes into the circuit, it automatically goes to each device in turn. It shuts off if it senses an overload. This protects the winch and any other devices connected to it from getting damaged in case of an electrical emergency.

Where are them industrial winches made?

Them industrial winches are made in the U.S.A. and provide maximum durability, reliability, and safety to keep your business running. As an experienced winch manufacturer, we know you depend on your winch to get the job done — day in and day out.
